

Live Stream Events & Support USD 321!

USD 321 has partnered with the NFHS Network through their new High School Support Program. This program provides 2 Pixellot cameras to be installed at the football field and SMHS main gym and will host livestream events from those facilities, both high school and junior high. This partnership also provides USD 321 a share of the revenue from Annual Subscriptions and fans can add an optional donation, of which 100% is passed on directly to the district.

Your subscription gives you access to any live event on the NFHS Network site, but specifically access to Bears home or away events within the Mid-East League, as all six schools have partnered in this program.

To get your subscription, simply go to www.nfhsnetwork.com/subscribe/retail and select the All-Access Monthly Plan. You will need a valid email to create an account.
